Drinking Water Retested

No Nitrites were detected

Lab Results

Entry point (compliance): nitrate = 0.65 ppm, nitrite = not detected

Two special purpose

Well 1: nitrate = 0.55 ppm, nitrite = not detected

Well 2: nitrate = 0.57 ppm, nitrite = not detected

Nitrate legal limit is 10 ppm and nitrite is 1 ppm.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR
POCAHONTAS COUNTY HIGH SCHOOL, WV9938035
Has Levels of NITRITE Above Drinking Water Standards

DO NOT GIVE THE WATER TO INFANTS UNDER 6 MONTHS OLD OR USE IT TO MAKE INFANT FORMULA

DRINKING WATER WARNING

Infants below the age of six months who drink water containing Nitrite in excess of the MCL could become seriously ill and, if untreated, may die. Symptoms include shortness of breath and blue baby syndrome.

What should I do?

- **DO NOT GIVE THE WATER TO INFANTS.** *Infants below the age of six months who drink water containing nitrite in excess of the MCL could become seriously ill and, if untreated, may die. Symptoms include shortness of breath and blue baby syndrome.* Blue baby syndrome is indicated by blueness of the skin. Symptoms in infants can develop rapidly, with health deteriorating over a period of days. If symptoms occur, seek medical attention immediately.
- Water, juice, and formula for children under six months of age should not be prepared with tap water. Bottled water or other water low in nitrites should be used for infants until further notice.
- **DO NOT BOIL THE WATER.** Boiling, freezing, filtering, or letting water stand does not reduce the nitrite level. Excessive boiling can make the nitrites more concentrated, because nitrites remain behind when the water evaporates.

Adults and children older than six months can drink the tap water (nitrite is a concern for infants because they can't process nitrites in the same way adults can). However, if you are pregnant or have specific health concerns, you may wish to consult your doctor.

What happened? What is being done? (Describe corrective action)

In 2004, Nitrite was sampled with results of 0.14 mcl. In 2019, Nitrite was sampled with results of 1.9 mcl.

The legal limit is 1.0. We are unsure at this time what has caused the change. However, we are exploring if one or both wells are contaminated. We are resampling and will keep the public informed with any updates.

May pick up students that other buses cannot. <u>Afternoon Run:</u> Reverse of Morning Run	2 Hour Delay – 8:45 AM 3 Hour Delay – 9:35 AM

Instructions for Snow Routes

1. If a Snow Route is in effect, the announcement will be broadcast on all the major new and radio outlets currently used by Pocahontas County Schools.
2. The Snow Route announcement will be broadcast on School Messenger to all of the Staff and Students of Pocahontas County Schools.
3. Snow Routes will only occur on 2 or 3 hour delays or in special circumstances.
4. The Snow Route that runs in the morning will also run in the evening. **NO REGULAR ROUTES (Morning or Evening) WILL BE RUN ON A SNOW ROUTE DAY!**
5. Students may ride a different bus rather than their normal bus.
6. If a student cannot get to school because a bus was not available, the parent must write an excuse that the bus was not running. The excuse is necessary for an excused absence. Obvious abuses of this situation will be handled by the Attendance Director.
7. Parents may transport their children to school but will have to either pick them up at the end of school day or call the bus driver and make arrangements for the child to be dropped off at a Snow Route stop. **NO REGULAR ROUTES (Morning or evening) WILL BE RUN ON A SNOW ROUTE DAY!**
8. There is no way to practice Snow Routes. Our first attempt of the new school year may not be as refined as we want it to be. The efficiency will get better as we run them more often.
9. The ultimate decision as to whether a child rides the bus and attend school lies solely with the parent. If the parent deems it too dangerous for their child to go, then the child will be absent. But it is the sole responsibility of the parent to present an excuse as to the reason for their child's absence.
